Due Date of the tender : 17.04.2017 at 3.30 PM

CORRIGENDUM

With reference to our tender Ref. No. IITPKD/CC/028/2016, the Tender published For “**Design, Development and Maintenance of official website of IIT Palakkad**” on 16th March, 2017 has been revised as follows.

Technical Requirements

1. (vi) Interactive presentation of content.

This point has been removed.

- (xii) Support for visually impaired and otherwise disabled or challenged users

This point has been removed. But the website should conform to WCAG 2.0 guidelines.

- (xiv) Support to create microsities / web portals within a main Website using a subdomain / virtual directory.

This point has been elaborated as follows:

Microsities

Apart from the main web portal for the institute there should be at least two microsities for department level web portals. The microsities should have at least the following features:

- a. Department homepage with gallery, events, awards, news blocks and separate menus.
- b. Structured faculty profile forms using which each faculty member can create their profile page with aggregatable fields like publications, awards, research area etc. and generic text area.
- c. Separate faculty-list page listing cards for each faculty member (of the department) showing selected information (like Name, Research area, etc.).
- d. The customised data-entry forms for faculty profiles and events should follow the same structure as those in the main portal.
- e. Selected content like recent Publications, Events and Awards etc. should be

aggregated, sorted by date and displayed on the microsite homepage.

- f. The above items (publications, events, awards etc.) and gallery images from the main portal and all the microsities should be aggregated together, sorted by date and displayed on the main portal homepage.
- g. The faculty profiles created in the microsities should be displayed in the faculty list page of the main portal also.
- h. There should be a provision for each microsite to choose its own colour scheme.
- i. A detailed documentation should be provided with instructions on how to launch a new microsite in future with all the above features and set the administrative rights. The same should be demonstrated to our system administrator.

xviii. Perform periodic updation of all softwares including their dependencies.

This point is explained as follows.

Periodic updates

- a. **The updates only refer to the CMS and add on modules. The server side software like**
- b. **Web Server, Database server, PHP etc. will be updated by our System Administrators.**
- c. **Every security update should be applied as and when the update is available.**
- d. **Only minor version updates of the software needs to be done during the period of the maintenance contract.**
- e. **All the updates should be done with the concurrence of our system administrator (No auto updates)**
- f. **If the Institute updates its payment gateway, the required changes for integration has to be performed within 48 hours. The institute will make at most to a maximum of 12 number of updates during the period of contract.**

xvi. Scalability to incorporate ERP, File Tracking, MOODLE, etc.

This point has been removed.

Groupwise administrative functionalities required:

I. Super Administrator: (iii) Database Management : Ability to create new database tables, create new user interface to enter data (forms) and display dynamic content (like reports and alerts) from the database. He should be able to generate highly filtered query based automated reports and display them.

The term 'automated reports' is elaborated as follows:

Automated reports

1. Aggregated list of publications from all faculty members.
 - a. Start and end date should be selectable
 - b. Different sorting options (by date only, by department and then date)
 - c. Filter by category (Journal/Conference/Book Chapters)
 - d. Both spreadsheet compatible export and PDF export should be supported apart from being 'copy-paste' to word processors.
2. Aggregated list of all events that happened in the institute - again with filtering options (date, category, department)
3. Aggregated list of all awards received by the institute and faculties - again with filtering options (date, category, department etc.)

Page 12, Eligibility Criteria. Point 2

2. The Bidder should have satisfactorily designed, maintained & managed the website and hosting of a Government/Reputed educational institution for a minimum period of 01 (one) year. Proof needs to be attached.

This point is revised as

The Bidder should have satisfactorily designed, maintained & managed the website and hosting of a Government organisation / Reputed educational institution / Any major organisation (subject to the approval of institute level assessment committee) for a minimum period of 01 (one) year. Proof needs to be attached(Copy of completion certificate of the project).

Page 12, Eligibility Criteria, Point 3

3. Bidder should have **Web 3.0 and Web 2.0** experience and should demonstrate at least one success story in each where these have been implemented and organizations have transformed and got benefited over last 3+ years. Proof needs to be attached

This point is revised as

Bidder should have Web 2.0 experience and should demonstrate at least one success story where that have been implemented and organizations have transformed and got benefited over last 3+ years. Proof needs to be attached.

Page 12, Eligibility Criteria, point 4 has been removed.
